Come visit me and other local artists as we show off our creations! This is the fifth year that I have been in this show. Look forward to a wonderful assortment of gift ideas and it's always lots of fun! I have added new products to my Goddess Collection and Face Care line and have launched Kate's Garden Delights, a selection of herbal culinary seasonings, honeys, vinegars and oils. I will also be taking orders for holiday chocolates and cookies made by my sis ... Teresa. She is an incredible baker and candy maker! Sample boxes will be available for purchase.

## **... and NOW for the NEWS!**

The spring tornado and two hail storms brought destruction to much of my gardens. I was disappointed and heartbroken to have to cancel my annual Lavender Festival. Yet we survived and even thrived! Through it all I was humbled and amazed to witness Nature's resiliency and will to complete her cycle of life. This was evident in the garden's fall harvest. Although she was not quite as abundant, she was none the less vibrant, flavorful and fragrant.

Being able to observe the garden's cycle and determination allowed me the opportunity to go within my own creative center, gestate and give birth to a new collection of herbal culinary products for your cooking pleasure and I thought that this would be the perfect time to share them with you.

... offering everything herbal:

- lavender infused honey
- an assortment of culinary herbal sea salts
- herbal oils and vinegars

I can't wait for you to experiment with them in your kitchen or give as a holiday gift.

It seems that everyone is concerned about what they put IN their bodies these days. But what about what you use ON your body? I feel this is equally important!

My mission as proprietress of Scents of Balance has always been to formulate the finest and purest natural products possible for your beauty and wellness and that of your family. Whether you are selecting one of my Baby or Face Care creations, an energetic healing mist or anointing oil, or one of my many therapeutic creams or balms, you can be assured of my attention to quality and will recognize and feel the difference in my products. All are hand crafted in small batches, the herbs are organically grown in my own gardens, no synthetics are ever used, and all are energized with the healing vibration of Reiki. Because I am a small business owner and one woman show, I depend on your support and input to keep me on track with meeting your needs while continuing to build my business. I encourage you to share your experience of the products with me so that I can continue to grow and excel.

**I wish you all peace, joy and abundance in the days to come, and I look forward to seeing and speaking with you during the holiday shows.**
